DR. BBQ’S BACKYARD CHAMPIONSHIP RIBS

Ray Lampe

Barbecue Hall of Fame Inductee

“I’ve spent many years in the barbecue business with a lot of bumps and bruises along the journey. Being inducted into the BBQ Hall Of Fame justifies it all and makes me feel like I have truly made my mark in a positive way.”

Ray “Dr. BBQ” Lampe has been barbecuing professionally for over 25 years and is an award winning competitive BBQ cook, Big Green Egg aficionado – and an acclaimed member of the American Royal Barbecue Hall of Fame. Ray has authored numerous cookbooks, including Pork Chop and Slow Fire as well as The NFL Gameday Cookbook; and has showcased his abilities on many television programs including Chopped Grill Masters and Food Network’s Tailgate Warriors with Guy Fieri. “I love barbecue because it is not just about the food … when you walk into a true barbecue restaurant you can really sense the history of the place in addition to the amazing smells of smoked meat.”

DR. BBQ’S BACKYARD CHAMPIONSHIP RIBS

2 slabs of St. Louis-style or baby back ribs, cut into thirds, membrane removed*

½ cup (160 ml) Dizzy Gourmet® Down & Dizzy™ Seasoning

⅓ cup (80 ml) turbinado sugar

½ cup (160 ml) pure honey

1 cup (240 ml) apple juice

1½ cups (360 ml) Big Green Egg Barbecue Sauce

• Set the EGG for indirect cooking (with the convEGGtor) at 325°F/163°C with a large handful of cherry chips and a small handful of hickory chips.

• Mix the seasoning and the sugar together and rub it on the ribs; use about ⅔ on the meaty side and ⅓ on the bone side. Let rest for 30 minutes.

• Place the ribs on the EGG using a V-Rack. Cook for 90 minutes until the ribs are golden brown; remove to a platter and brush on both sides with honey.

• Stand the ribs on end in an aluminum foil pan with apple juice in the bottom. Cover with foil and return to the EGG (the cooking time for this step is one hour as a guideline; test with a toothpick to see if they are as tender as you like them).

• Remove the convEGGtor and raise the temperature to 375°F/190°C. Brush the ribs with the barbecue sauce and cook, flipping and brushing often, for 15-20 minutes. Transfer to a platter and serve. Serves 6.

* To remove the membrane, carefully slide the tip of a butter knife between the membrane and a bone near the end of the rack. Rock the knife back and forth gently to loosen the membrane; using a paper towel, pull up the membrane and slowly peel off.

The Big Green Egg is designed to work as a complete outdoor cooking system, producing unrivaled results whether grilling, roasting, smoking or baking — and nothing contributes more to the versatility of your EGG than adding a convEGGtor to your EGGccessories collection.

The convEGGtor® Indirect Convection System

The convEGGtor is designed to facilitate indirect cooking on the Big Green Egg by providing a heat-directing barrier between the food and the charcoal, transforming your EGG into an outdoor convection oven. The design of the convEGGtor, in conjunction with the thermal properties of the EGG, allows heat to efficiently radiate within the dome and prevents the direct flames and heat from overcooking the food.

Elizabeth Karmel is a food fanatic — and a noted authority on grilling and Southern food — who has seasoned, basted and tasted her way across the country. Growing up in North Carolina, Elizabeth fell in love with the barbecue typical of the region. “If you love barbecue, that’s reason enough to bond, become friends and break bread!” says Elizabeth. “My secret is cooking ‘low and slow’ — and that means indirect heat. Baking, roasting and slow-cooking with indirect heat in my EGG couldn’t be easier or more hands-off! Basically, add a convEGGtor and let the organic charcoal, smoke and natural flavors inherent in the food work their magic.”

Author of three acclaimed cookbooks, Karmel recently launched CarolinaCueToGo.com, an ‘online barbecue shack’ specializing in North Carolina whole-hog barbecue. “I want my food to feel like someone you love has given you a hug when you take a bite of it. My greatest pleasure is cooking for people.”

Known to television viewers as the Mississippi belle whose low-key demeanor disguised nerves of steel and true culinary skills, Whitney Miller crushed the competition and became the first winner of MasterChef. Growing up in a very food and family-oriented environment, she learned how to create much-loved dishes for friends and family … and inspired by her mother, grandmothers and great-grandmothers, she also discovered the most essential ingredient for any meal – hospitality.

Using healthy ingredients to create a fresh twist on Southern classics, Whitney has traveled around the world – from Cape Town’s Good Food and Wine Show in South Africa to the luxurious St. Regis Tianjin in China – inspiring others with recipes and effortless entertaining ideas to turn any occasion into something special.

## Ingredients

- ¼ cup (60 ml) red pepper jelly
- 1½ tsp (8 ml) soy sauce
- ½ tsp (1 ml) ground coriander
- Pinch ground ginger
- 1 garlic clove, minced
- 2 lbs (900 g) chicken tenderloins, cut into 1 in (3 cm) cubes

### Peanut Sauce

- 3 tbsp (45 ml) natural creamy peanut butter
- ½ cup (180 ml) canned unsweetened coconut milk (top white part only)
- 2½ tsp (12 ml) soy sauce
- 2 tbsp (30 ml) chicken broth
- 1 garlic clove, minced
- ½ tsp (3 ml) finely grated yellow onion
- 1½ tbsp (22 ml) dark brown sugar
- 1 tsp (5 ml) lime juice

## Method

1. Mix the first five ingredients together in a medium bowl. Spoon a few tablespoons of the marinade in a small bowl and set aside. Skewer the chicken cubes closely together on the Flexible Skewer. Add the skewered chicken to a large resealable bag; add the marinade and refrigerate for 1 to 2 hours.
2. For the peanut sauce, whisk together all of the ingredients in a small bowl. Set aside.

- Set the EGG for direct cooking (without the convEGGtor) at 400°F/204°C.
- Cook the skewered chicken for 3 to 4 minutes on each side until done. Transfer to a serving plate. Lightly brush the reserved marinade over the chicken; serve the Chicken Satay with the peanut sauce.

ROAST CHICKEN WITH LEMON AND GARLIC

Recipe adapted from Man Made Meals: The Essential Cookbook for Guys by Workman Publishing

Ingredients
1 chicken 3½ to 4 lbs (1.5 to 1.8 kg), preferably organic
Coarse salt (kosher or sea) and freshly ground black pepper
1 head garlic, cut in half crosswise
1 lemon, cut in half crosswise
3 sprigs fresh rosemary (optional)
1 tbsp (15 ml) extra virgin olive oil or butter, at room temperature

Method
• Set the EGG for indirect cooking (with the convEGGtor) at 400°F/204°C.
• Rinse the chicken under cold water and blot dry with paper towels. Place the chicken in a Roasting & Drip Pan. Generously season the neck and cavities with salt and pepper. Place 2 garlic cloves in the main cavity along with 1 of the lemon halves and a sprig of rosemary. Place a third garlic clove in the neck cavity.
• Concentrating on the breast, rub the chicken with the cut side of the garlic, remaining lemon half and the butter or olive oil. Generously season the bird on all sides with salt and pepper. Truss the chicken, then place breast side up in the Pan. Add the garlic halves, lemon half and rosemary, with the cut side of the garlic and lemon facing the bird.
• Place the chicken in the EGG and roast it until the skin is crisp and golden brown and the meat is cooked through, 1 to 1¼ hours. After 30 minutes, start basting the bird with the juices that accumulate in the bottom of the pan.
• Roast until the internal temperature reaches 165°F/74°C. Lay a piece of foil over the breast if it starts to brown too much before the bird is fully cooked.
• Transfer the chicken to a cutting board and let it rest for about 5 minutes. Remove the trussing string before carving the bird.

“Besides the quality of the product itself, among the advantages of the EGG are the shape and its thick ceramic walls – both of these elements enable an EGG to retain heat and moisture in a way that other grills don’t,” says Steven. “And thanks to those thick walls, once you get the EGG up to temperature, it holds the heat – even in an Alaskan winter.”
